

ATI Job Profile

Test Engineer Intern

Location: Novi, MI USA

ATI is seeking self-motivated individuals to fill positions in our Quality Assurance group in Novi, Michigan. This is a competitively paid internship

Responsibilities

The primary responsibility of this position is to create and execute test cases, as well as document and verify issues found during testing of ATI Products in order to ensure that quality software products are delivered to ATI customers.

Responsible for developing and executing manual test cases.

- Report Bugs and errors to development teams.
- Test new features, and bugs fixed by the development team.
- Isolate the root cause of an issue and create steps to reproduce.
- Work with cross-functional teams to ensure quality throughout the software development lifecycle.
- Other Duties as assigned by management.

Qualifications

The ideal candidate will have the following qualifications and skills:

Essential Skills/Experience

- Strong computer skills and ability to learn new computer programs/software quickly
- Strong problem-solving skill set with a strong attention to detail.
- Strong verbal and written communication skills

Desired Skills/Experience

- Understanding of software test practices. (Unit Test, Acceptance Test, Test Plan)

Bonus Skills/ Experience

- Software programming languages (C#, Visual Basic, python)
- API/COM Interfaces.
- Microsoft Products (Excel, Word, Teams, TFS))

Essential Non-Technical Skills

- Positive proactive attitude and solid work ethic.
- Strong communication skills.
- Strong organizational skills.
- Experience with Microsoft Office applications.
- Willingness to follow processes and procedures.
- Ability to work independently.

Candidates who meet the preceding qualifications should email their resume to hr_us@accuratetechnologies.com.
